

Program Steps

Mission

The mission of St. Lucie INTACT is to strengthen disaster coordination by sharing information, simplifying resident access to services, and providing collaborative leadership in the long-term needs for recovery and rehabilitation for individuals and families vulnerable to disaster events.

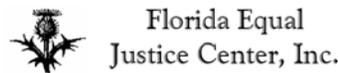

Goals

To work with individuals and families who have been affected by disaster.

To assist individuals and families with their plans for recovery.

To help resolve long-term related needs that have not been met by local state, federal or voluntary agency assistance.

If you are interested in donating time or materials to INTACT, please call 462-2093 or visit our web page for more information.

Hurricane Mitigation For Low Income Homeowners

437 NORTH 7TH STREET
FORT PIERCE, FLORIDA 34950

(772) 462-1777 * Fax: (772) 462-2094
www.stlucieco.gov/community/intact.htm

Do you...

- ◆ Own a site built home?
- ◆ Have a homestead exemption on your home in St. Lucie County?
- ◆ Have a household income less than that in the chart?
- ◆ Have a home that was built prior to 2002?

You may be eligible for assistance with Hurricane Mitigation!

Please call INTACT at
772-462-1777!

Family Size of	Income Category	Annual Income Less Than
1	Low	\$33,500
2	Low	\$38,300
3	Low	\$43,050
4	Low	\$47,850
5	Low	\$51,700
6	Low	\$55,500
7	Low	\$59,350
8	Low	\$63,150

Note: You do not need to have homeowners insurance in order to qualify for this program. If you do have insurance, the value of your home must be less than \$300,000.

Hurricane Mitigation

Mitigation is the process of 'hardening' a home to make it less likely to be damaged during a storm. The state legislature in conjunction with the Volunteer Florida Foundation has provided funding to assist low income residents in making improvements to their homes to reduce the likelihood of wind and water damage during a hurricane.

The following types of improvements have been approved by the legislature.

- ◆ Improving the strength of the roof deck attachment.
- ◆ Creating a secondary roof water barrier to prevent water entering the home if the roof is damaged.
- ◆ Upgrade of roof covering to greater than 110 mph winds.
- ◆ Gable Bracing in homes with gable roofs to reduce roof loss and damage.
- ◆ Reinforcement of roof to wall connections to decrease the chance of roof loss.
- ◆ Protection for doors and windows to reduce water intrusion and wind damage.

Homeowners who are eligible will receive a free inspection that indicates the type of mitigation they may need from those items indicated above. Please note that INTACT cannot guarantee that all improvements will be provided through this program.

Those who do not meet the income requirements can still register for a free inspection and the 50/50 match program through the website
www.mysafefloridahome.com.

PLEASE NOTE: RENTAL PROPERTIES, CONDOMINIUMS, MOBILE AND MANUFACTURED HOMES ARE NOT ELIGIBLE FOR ASSISTANCE UNDER THIS PROGRAM
