

ELECTRICAL NON-CONTRACTOR

DESCRIPTION:

An Electrical non-contractor's license is for those electricians who demonstrate suitable knowledge and experience to perform work in the electrical trades while employed or supervised by a Electrical Contractor who has taken and passed the Master Electrical Block Exam, but who, by their own choice, do not wish to meet the full requirements of a Contractor. Reclassification from a lawfully issued and currently valid Electrical Non-Contractor license to an Electrical Contractor license is possible, without taking the Block Exam a second time, by meeting the proper requirements of the Electrical Contractor.

EDUCATION AND EXPERIENCE REQUIREMENTS:

All applicants for a St. Lucie County Electrical Non-Contractors license shall provide written proof of having six **(6) years** field experience, including two (2) years supervisory experience, under the supervision and control of a licensed electrical contractor.

All applicants for a St. Lucie County Electrical Non-Contractors license must pass, with a **70%**.

A St. Lucie County Electrical Non-Contractor **is not** authorized to apply for or receive electrical construction or building permits. Electrical construction or building permits may only be issued to a licensed Electrical Contractor, a General Contractor, a Building Contractor or a Residential Contractor.

APPLICATION AND REQUIRED FEES:

Applications for St. Lucie County Electrical Non-Contractor's license must be filed with the required, non-refundable fee of **\$50**.
